SILENT CITY

Portable Asset, Shader, and Document Path Index

OPEN THIS PDF FIRST. It maps every file currently stored inside the portable `Graveyeard_Tilesets_Objects` package. All locations are relative to this PDF, so the complete parent folder can be moved to another computer without changing a drive letter or Windows username.

Root folder map

Folder	Portable path from this PDF	Files	Purpose
First tileset	`../GraveyardTileset/`	35	Background, objects, bones, terrain tiles, and vector sources.
Second tileset	`../GraveyardTileset_second/`	75	Collectables, environment objects, platform pieces, ladder, bridge, and spike.
Documents	`./`	13	PDF plans, Markdown sources, and level-layout images.
Rain	`../Rain/`	3	Godot rain/snow shader and its MIT license.

Path rules

- `./` means the same Level_Design_Documents folder as this PDF.
- `../` moves up to the Graveyeard_Tilesets_Objects root, then into the named asset folder.
- Keep folder and file spelling exactly as listed. The existing folder name `Platfromer` is misspelled in the source package and must not be silently corrected in a path.
- Never replace these paths with a drive letter, username, Desktop path, or another machine-specific absolute path.

Indexed files: 126. **File types:** .ai: 1, .cdr: 1, .eps: 1, .flac: 1, .gdshader: 1, .md: 2, .pdf: 8, .png: 108, .rtf: 1, .svg: 1, [no extension]: 1

No game files, tilesets, shaders, images, or online resources were modified while creating this index.

Shader and license locations

Godot shader: `../Rain/rain_and_snow_shader.gdshader`

Procedural Godot canvas_item shader for near/far rain or snow streaks. The current file has the sharp no-trail snow expression active and the blurred rain-trail expression commented out. Consult the rain design PDF before any implementation change.

MIT license: `../Rain/Rain and Snow Shader MIT Licence.rtf`

Copyright (c) 2023 Brian Smith (steampunkdemon.itch.io). Keep the copyright and permission notice with copies or substantial portions of the shader.

Rain design and shader analysis: `./silent_city_story_mode_rain_design.pdf`

Contains Medium and Hard starting presets, scene-placement guidance, shader and audio analysis, readability limits, attribution requirements, and the implementation prompt.

Rain and thunder audio: `../Rain/Rain_And_Thunder_5min.flac`

Stereo 44.1 kHz, 24-bit FLAC; exact duration 5:19.929; approximately 57.5 MiB. No embedded ownership or license tags were found. The shader MIT license does not cover this audio, so its source and redistribution rights must be documented before shipping.

Document locations and purposes

Relative path	Purpose
`./00_silent_city_asset_and_document_path_index.pdf`	Open first: complete portable path and file index.
`./graveyard_level_design_three_versions.pdf`	Three Outer Graveyard level-layout versions and prompts.
`./graveyard_story_mode_three_versions.md`	Editable Markdown source for the three graveyard versions.
`./graveyard_version_1_moonlit_procession.png`	Planning diagram: Moonlit Procession.
`./graveyard_version_2_crypt_detour.png`	Planning diagram: Crypt Detour.
`./graveyard_version_3_broken_cemetery_trial.png`	Planning diagram: Broken Cemetery Trial.
`./silent_city_side_scroller_prompt_with_layout.pdf`	Master story-mode side-scroller prompt with concept layout.
`./silent_city_story_mode_design_ideas.pdf`	Older English design reference with portable-path appendix.
`./silent_city_story_mode_design_ideas_georgian.pdf`	Older Georgian design reference with portable-path appendix.
`./silent_city_story_mode_rain_design.md`	Editable Markdown source for rain and storm planning.
`./silent_city_story_mode_rain_design.pdf`	Rain/storm plan, shader analysis, presets, and implementation prompt.
`./silent_city_storyline_english.pdf`	Authoritative English storyline reference.
`./silent_city_storyline_georgian.pdf`	Authoritative Georgian storyline reference.

Complete portable file manifest

Every path below is relative to this index PDF. File sizes describe the current package at generation time.
